SUMMARY

Experience in university education in the field of computer science. Experience in the field of information and computer security, as well as holding certificates in this field. He has a PhD in Blockchain technology as the second student in the United Kingdom and the first in the Middle East. My aim is to provide all the knowledge and experience gained to serve this scientific edifice and elevate it to the highest ranks and to be a global edifice comparable to the best global edifices. In addition, my aim is to elevate my country in line with the Kingdom's 2030 vision, so that the Kingdom will be one of the best countries.

EXPERIENCE
