

Quality Forum for the Best Practice 2019

Vice Deanship of Scientific Research Shaqra University

Dr. Suhad Alarifi

Vision

The Deanship of Scientific Research at the University of Shaqra seeks to promote scientific research to achieve a research environment that is complementary to the University's mission of education, scientific research and community service. And to become a pioneer in the field of scientific research locally, regionally and globally to strengthen the scientific and technical status of Saudi Arabia

Mission

Developing and enhancing scientific research by providing the scientific environment in support of research achievements inside and outside the university

SWOT Analysis

Increase the knowledge of research

Strengths

The university has leaders believe in supporting scientific research and has many colleges among 9 Governorates. Has a budget.

Weakness

The university needs research centres, collaborations with specialist research centres, not enough research assistants.

Opportunities

Achieve the 2030 Saudi Vision in Scientific research

Threats

Not enough supports for the staff and students.

Thanks
