Admission and Registration Handbook
Academic year 1444H

A MESSAGE FROM THE DEAN

Glory to Allah, Peace, and Blessings upon His Prophets and Messengers, including our Prophet Muhammad, his family, and companions.

I'm overjoyed to bless this student handbook since my colleagues have worked tirelessly to make it the go-to resource for any questions about the college by identifying the disciplines, providing a plan of study for each department, and supplying course descriptions for every course offered at every academic level. Also, the college's policies and executive rules that are now in effect, as authorized by the Shaqra University Council, are described in this handbook.

We genuinely care about and assist each of our cherished students. Our door is always open for you to voice your concerns and offer ideas on how to improve and expand our learning community. This student handbook is filled with useful information to guide you during your time at Shaqra University's, Al-Quwaiiyah Campus

Our mission is to encourage your personal development, support your involvement in our institution, and encourage the acquisition of crucial life skills that will help you succeed even after you leave the university's premises. Use it, educate yourself on your obligations as a student, and set off some time to take advantage of the numerous options for involvement. You will truly get the most out of your time at the institution if you follow the right direction.

May Allah bless you with success.

DR. ABDULELLAH ALSOLIAS
Dean of the College

Apply online:

All prospective students to Shaqra University must register through Online Admissions. The link will be available during the Admissions period only through <https://www.su.edu.sa/ar/e-services>

As admission and registration at Shaqra University are one of the most significant Deans at the institution, it is regarded as the catalyst and the major organizer for the academic process from a technical perspective. It is thought of as the connection between the college and the community, as well as between the instructors and students from the start of their time at the university and up until their graduation through <https://www.su.edu.sa/ar/deanships/deanship-admission-and-registration/electronic-services-students>

The Deanship also offers numerous administrative, technical, and electronic services, such as a registration system, an electronic admission system, an academic follow-up system, the monitoring of results, the graduation of the students, the disclaimer and students statements, and also to publish the rule, instructions, and dates of admission and registering, among other things of what the Deanship offers and seeks to provide it diligently with the advantage of modern technology.

It, also educates students about the rules and guidelines they must follow while pursuing their academic goals, including those about the academic calendar, assessments, and awards. To inform students about the prerequisites for admission and to give them the essential information and an admissions guide, the deanship actively engages with secondary schools.

Also, it helps with the delivery of electronic services for instructors, such as receiving the course schedule, and student names, and inputting grades. Moreover, it consistently attempts to gain from new methods and develops its numerous programs to deliver the greatest services possible. It also aims to make the academic system at the university, one of its biggest and most crucial systems, easier to support. This system is most in need of modernization and development in terms of the establishment of programs and maintenance or modification following academic changes at the university. It also seeks to link them with the Deanship staff. It supports the improvement of staff members' performance as they transition to an electronic work environment in line with the wise leadership's orders to execute the an of government, achieve the level of admission, and enroll in the most prominent universities. In all that achievement, we pray to The Almighty for reconciliation.
