Bachelor of Nursing Sciences Program

The rights and responsibilities manual

## The rights and responsibilities of the Teacher

### Teachers' rights:

Teachers have a right to:

- Require students to adhere to reasonable directions provided by instructors while performing their jobs.
- Assume that they will be able to instruct in a disciplined and cooperative setting.
- Students should be expected to arrive on time, attend lessons regularly, and bring all necessary materials.
- Be fair and consistent when enforcing rules and punishments, and exercise judgment while doing so.
- Be informed about issues involving students that will influence their teaching and learning program while adhering to privacy regulations.
- Receive the admiration and assistance of the school community.
- Require students to adhere to all classroom and College regulations and requirements as outlined in the Student Code of Conduct.

### Teachers' responsibility:

Teachers have a responsibility to:

- Apply the engagement policy in a fair, rational, and consistent manner.
- Encouragement and positive reinforcement can be used to boost confidence.
- Establish trusting ties with students
- Possess a thorough understanding of how to instruct students.
- They are knowledgeable and have full command of the subject.
- They have a thorough understanding of their students.
- To ensure successful learning, plan and evaluate.
- Establish and maintain environments for learning that are rigorous and safe.
- Put the anti-bullying and harassment policy into effect.
- When necessary, use specialized welfare and referral services.
- Use a variety of instructional techniques and tools to motivate students to study effectively.
- Frequent evaluation of students' performance, engagement, attendance, and wellbeing
- Show decency, fairness, and respect to all college students.
- Inform parents and guardians on the development and educational progress of their children.
