

## College of Nursing - Dawadmi

<b>Programs Name:</b> Nursing		<b>Course Code:</b> NUR 3419
<b>Course Title:</b> Nursing Research and evidence based practice		<b>Credit hours:</b> 4(4+0)
<b>Course Description</b>		
This course is designed to assist the student to develop an understanding of the basic principles of research and scientific inquiry. Also, providing nursing student with the evidence-based practice & cognitive critical thinking skills required for professional nursing practice and enables nursing students to practice critical thinking through the analysis of certain nursing case studies, including the identification of problem and steps in research methodology in the field of nursing, provides nursing students with competencies necessary to read, evaluate, and interpret findings of nursing research studies. In addition to the use of computers in conducting research project in groups and use of the findings in nursing practice. Specific emphasis is placed on a variety of nursing specialties including adult health nursing, community nursing, maternal-newborn nursing, child health nursing and mental health nursing.		
No	Course content	
1.	Introduction to the course and its requirements Exploring Nursing Research	
2.	Nursing Research Problem/s Hypotheses and Research Questions	
3.	Literature Review and Theoretical Framework	
4.	Design & Methodology:	
5.	The Empirical Phase: Population and Sample. Data collection phase/strategies	
6.	Instrument Measurement	
7.	Analysis of research data Interpretation and discussion of findings-	
8.	Communicating research findings Ethics in nursing research & ethical considerations	
9.	Utilization of research findings	
10.	Introduction to Evidence-Based Practice (EBP) & Critical Thinking in nursing.	
11.	Reading & Critiquing	
12.	Models of evidence-based practice	
13.	The Evidence Based Practice Question	
14.	Searching the evidence-based & its application	
15.	Conducting Systematic Reviews Part 1	
16.	Conducting Systematic Reviews Part 2	
17.	Translating evidence into practice
